

REBUILDING PLANS:

The chairman said that it was the executive committee to repair and renovate the present building as necessary in the years ahead.

During a general discussion on the long-term future of the centre it was agreed that outline planning permission should be sought for a replacement building on the present site as soon as possible. The executive committee would be dealing with the application as a matter of urgency.

SOCIAL EVENTS:

During a general discussion it was agreed that social events organised for the centre were badly supported. Members were urged to compile ideas for suggested events for the autumn and present them to the next meeting.

Date and time of next meeting:

Wednesday June 7th at 8pm.
